seit 2018 den Baumbestand der deutschen Hauptstadt thema-
tisiert.

Leafes of Berlin (Berliner Blätter) as a block-puzzle to grab, learn and play!

Berlin is considered to be the greenest large city of Europe.
More than 50 different tree species grow within its urban space.
The most common six species are: maple, beech, oak, chestnut,
lime and plane. Find more info: <https://www.berlin.de/sen/uvk/en/>

Berliner Blätter is a serial project of kepler studio. It thema-
tizes the tree population of Germany's capital since 2018.

Les feuilles de Berlin (Berliner Blätter) : un puzzle fait de cubes en bois à manipuler, à assembler pour retrouver les feuillages des différents arbres de Berlin et apprendre en s'amusant !

Berlin est considérée comme la ville la plus verte d'Europe et
possède un patrimoine de plus de 50 espèces d'arbres. Les six
espèces les plus présentes sont : l'érable, le hêtre, le chêne, le
châtaignier, le tilleul et le platane.
